2001

Managed Care Enrollment Trend Report

October, 2002

Dear Colleague:

The New York State Department of Health, Office of Managed Care is pleased to share with you the seventh annual *Managed Care Enrollment Trend Report*. This report contains four sections: (1) December, 2001 enrollment by county for every fully capitated managed care plan, (2) December, 2001 enrollment by plan for every fully capitated managed care plan, (3) New York State managed care penetration rates, and (4) a New York State map of managed care enrollment.

The enrollment by county is collected annually as of December 31st. The data is self-reported by the managed care plans, in the membership section of the *2001 New York State Managed Care Plan Performance: A Report on the Quality Assurance Reporting Requirements (QARR)*. Each managed care plan that has been in operation for one full calendar year is required to submit the QARR data.
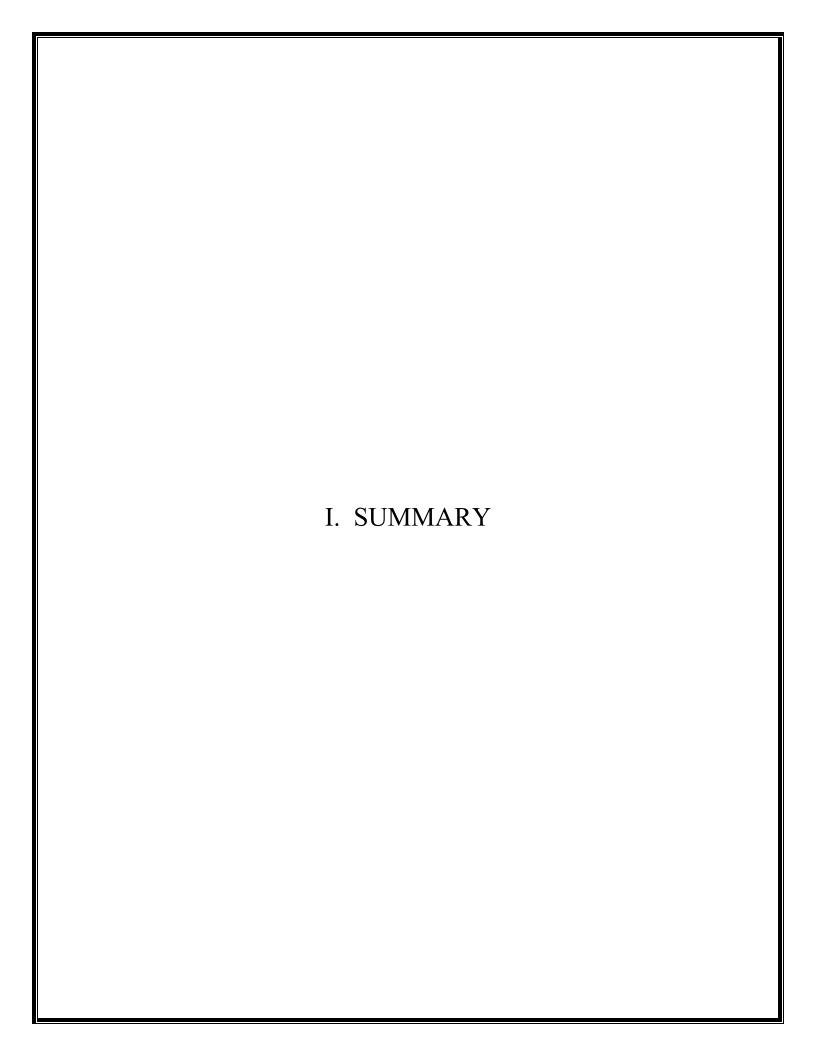

If you have further questions, or require clarification on the *Managed Care Enrollment Trend Report*, you may contact the Office of Managed Care at (518) 473-2941 or (518) 486-9012.

Sincerely,

Kathleen Shure
Director
Office of Managed Care

TABLE OF CONTENTS

I. SUMMARY

SUMMARY

The Managed Care Enrollment Trend Report is the New York State Department of Health's annual publication of enrollment by county for managed care plans licensed to operate in New York State.

The information included in this report is collected annually as of December 31st of each year. The data is self-reported by the managed care plans based on the address of their enrollees. Plans are not necessarily certified to operate in all counties where they have reported enrollment. This is because enrollees may live in counties outside of the certified service area.

There are two types of managed care plans in New York State included in this report: Health Maintenance Organizations (HMOs) and Prepaid Health Service Plans which primarily enroll Medicaid managed care and Child Health Plus (CHPlus) members. Partial capitation managed care programs are not included in this report.

Starting in 1996, the enrollment data collection process was formalized within the Quality Assurance Reporting Requirements (QARR). In the membership section of QARR, enrollment by county was requested for: commercial/HMO only, point of service (POS), direct pay, Child Health Plus, Medicare, Medicaid and total membership. The NYSDOH Medicaid Encounter Data System (MEDS) serves as the source for the Medicaid enrollment data in this report.

Only those Managed Care plans that have been in operation for one full calendar year are required to submit QARR data.

This report contains enrollment data sorted by county as well as a report of enrollment sorted by plan. For purposes of this report, the NYC unclassified section is for enrollees for whom NYC is the county of fiscal responsibility, but who have zip codes that are invalid or cannot be allocated to any borough. The penetration rate for each of the counties is provided using the 2000 Census provided by the NYS Department of Economic Development. (Total NYS population estimate as of April 1 is: 18,976,457.)
